

Emerging Materials 2023

13th -15th July 2023

Emerging Materials 2023 is aimed to cover contemporary research findings on the classes of materials including low-dimensional materials, energy materials, sustainable materials, optoelectronic materials and soft materials. The emphasis will be on rational material design, properties, spectroscopy, modelling and device fabrication.

Invited Speakers

Arun Venkatnathan (IISER Pune)

Ashok K. Ganguli (IIT Delhi)

Chinnakonda S. Gopinath (CSIR-NCL)
