## MALEGAON TRIAL MEDIA ENTRY STILL BARRED

Special Judge S D Tekale Wednesday dismissed a plea filed by a journalist from *The Hindu*, seeking permission to attend the hearing in the 2008 Malegaon blast case.

## Pune-based WIL supplied critical components used in ISRO's historic launch

EXPRESSNEWSERVICE  
PUNE, FEBRUARY 15

CITY-BASED Walchandnagar Industries Ltd (WIL) had all the reasons to cheer as India's space technology etched history on Wednesday by successfully launching 104 satellites in one go.

WIL, over the last three decades, has been constant supplier of key equipment to Indian Space Research Organisation (ISRO).

The industry has also been involved in almost all the major missions, undertaken by the space agency since 1973. Some of the missions include Augmented Satellite Launch Vehicle (ASLV), Polar Space Launch Vehicle (PSLV), Geosynchronous Space Launch Vehicle (GSLV), MK II and GSLV MK III launches.

For the Wednesday's mission, critical components used in the Polar Space Launching Vehicle (PSLV), including the head and nozzle-end segments, PSO motor cases were tailor-made for the PSLV-C-37 vehicle, which successfully lifted off the 104 satellites.

The industry has additionally made investments in introducing dedicated infrastructure, facilities and also skilled manpower suiting the future requirements of ISRO.

Of the 104 satellites, two satellites from the Cartosat-2 series belonged to India, while the other nano-satellites were owned by USA, Israel, Kazakhstan, Netherlands, Switzerland and United Arab Emirates.

## ARSON ATTACK AT MINE Lloyd Metals site supervisor held

VIVEK DESHPANDE  
NAGPUR, FEBRUARY 15

THE SITE supervisor of a Lloyd Metals iron ore mine, where Maoists carried out an arson attack in December last year, has been arrested by the Gadchiroli police. Officers said cash worth over Rs 4 lakh was seized from Irapa Usendi, who was later produced before a court and remanded in magisterial custody.

According to the police, Usendi, cousin of Maoist commander Sainath, had been under suspicion since the extremists set fire to 80 vehicles at the Lloyd Metals mine. A senior officer told *The Indian Express*, "We suspect Usendi was acting as a mediator between transporters and Maoists."

"Usendi was caught while he was going from his village, Abalpalli, to Etapalli town," Etapalli Sub-Divisional Police Officer Nitin Jadhav said. All notes found in his possession were in the denomination of new Rs 500 and Rs 2,000 notes.

As reported earlier by *The Indian Express*, one of the angles being probed by the police in the arson case is demonisation. It is alleged that the Maoists, suddenly faced with cash crunch, had sought replacement of their old currency notes with new ones from transporters. They allegedly carried out the attack after the latter failed to fulfil the demand. It was in this connection that the police are probing the possible role of Usendi.

Asked if the supervisor explained the possession of the cash, Jadhav said, "He is not giving proper replies. He says it was meant for labour payment, but we are not convinced."

While Jadhav didn't elaborate, the senior official said, "It's a technical matter and we have some leads. Further probe will throw light on whether Usendi was the link between transporters and Maoists."

## IISER scientists to help remove CO2 from industrial emissions

ANJALI MARAR  
PUNE, FEBRUARY 15

SOON, THE black smoke emitted from industries may be less harmful to human health, as city scientists have developed a material capable of removing carbon-dioxide from such emissions. This will also help reduce the greenhouse effect.

In order to tackle these emissions, particularly from thermal power plants, paper and cement factories, a team of scientists at Indian Institute of Science, Education and Research (IISER) have developed a material capable of efficiently absorbing carbon-dioxide from pre-treated black smoky gaseous matter emitted from the exhaust of chimneys.

Industrial and vehicular emissions are among worst contributors for rising ambient air pollution resulting in deteriorating of the air in our cities. Currently, the best solution to remove CO2 from large-scale emission sources seems to be capturing and burying them underground.

According to scientists, the biggest advantage of the material, Nickel Isonicotinate Metal Organic Framework (MOF) - labelled IISERP-MOF2 - is that it

## WHO's take on air pollution

ACCORDING TO the World Health Organisation (WHO), air pollution kills over three million people every year, globally. This amounts to nearly 5.4 per cent of the global mortality rate.

In a WHO report released last year, it was found that 98 per cent of cities in the low and middle-income category having population over 1 lakh, offered air quality to be highly choking as the existing air quality was nowhere close to the standards prescribed by WHO. It also went on to further mention that among the developed countries also, only 55 per cent cities offered fairly better quality air to breathe.

can serve as the CO2 capture sponge. This can then be fitted into the existing power plants, which in turn can help cleanse the smoky emissions ahead of their release.

The thermal plants have to often make huge investments towards cleansing setups for these by-product toxic gases.

Elaborating on the newly-developed material was lead IISER scientist R Vaidyanathan, who said, "This MOF has the capacity of selectively capturing carbon-dioxide in the presence of other ingredients, one of which is nitrogen gas, using minimum energy during this post-combustion capture process."

One of the major challenges in India is dealing with moist coal, which means that these CO2 sponges need to sustain moisture without losing their capacity.

This is where the experts are focusing, as they are targeting at a material which can not only purify the air but also do it in a manner where limited energy is required to regenerate the captured CO2 for further storage.

"Our research has indicated that this MOF is able to tackle such moist coal and separate CO2 even with limited supply of energy," the experts, working on a collaborative research with University of Ottawa in Canada and Pacific Northwest National Labs, claimed.

CO2 made available in this process, scientists suggest, can either be buried underground or later be made use for pumping out oil slicks from the rock crevices during oil explorations processes.

## Unease in Swabhimani Shetkari as leader's son contests ZP polls

PARTHA SARATHI BISWAS  
PUNE, FEBRUARY 15

THE UNEASE in the Swabhimani Shetkari Sangathan over the candidature of Minister of State Sadabhau Khot's son Sagar, for the upcoming zilla parishad elections, is now out in the open, with party chief Raju Shetti expressing his opinion about it. In a conversation with *The Indian Express*, Shetti said it was not right for a leader from the farmer's movement to try to secure a seat for his son.

Sagar Khot, the minister's elder son, is contesting from Bagnigat of Sangli Zilla Parishad. Khot has been nominated as the candidate from Rayat Aghadi. However, Khot's decision is not gone down well with many Swabhimani leaders, who have expressed concerns about the alleged proximity between him and the BJP.

The farmer leader's support for demonetisation has also not gone down well with the rank and file of the party.

Shetti said the outfit was fighting against leaders who were trying to maintain their family's hold over electoral seats. "In zilla parishad and panchayat samitis, we have seen leaders trying to push their sons and maintain their hold over seats. We have always

## Shetti said it was not right for a leader from the farmer's movement to try to secure a seat for his son

opposed such family politics and a leader from our outfit should not indulge in the same," he said.

As Khot heads the alliance in Sangli, he was responsible for the distribution of forms. When asked if he has conveyed his displeasure to Khot, Shetti replied in the affirmative.

On Wednesday, Shetti also announced that the Swabhimani Shetkari Sangathan will support the Shiv Sena in the zilla parishad and panchayat samiti polls in Pune.

"We have asked our people to work for Sena candidates and we will not be working for the BJP," he said. On whether Khot would continue in the government, Shetti said the decision will be taken after February 23.

"The working committee of Swabhimani Shetkari had nominated Khot to be part of the government and if it decides, it can call him back. We will take the decision based on the results of the zilla parishad polls," he said.

## NFAI acquires film Bari Behen

Pune: The National Film Archive of India (NFAI), Pune, has recently added another cinematic gem - *Bari Behen* (1949) - to its ever-growing collection.

Produced and directed by DD Kashyap, the Hindi film features the star cast of Suraiya, Geeta Bali, Rehman, Ullas, Pran and Baby Tabassum. The music was composed by Husnlal-Bhagatram, with lyrics by Rajinder Krishna and Qamar Jalalabadi. The album also features 'Chup Chup Khade Ho' by Lata Mangeshkar. The film (in duplicate negative) was received from Pune resident Radhika S Pai, daughter-in-law of Baburao Pai, a renowned film distributor. Pai started a film distribution office in Karachi and later joined Saraswati Cinetone and Prabhat Film Company. *Bari Behen* was the first film made under his own film company - Famous Pictures. **ENS**

## 'ILLEGAL SAND MINING AT SIRONCHA' 3 days after raid, FIR yet to be filed

VIVEK DESHPANDE  
NAGPUR, FEBRUARY 15

FAILURE TO register a criminal offence even after three days of conducting a raid against illegal sand miners in Godavari bed at Sironcha in Gadchiroli district has raised doubts about political pressure working in the interest of the mine operators.

The police and Revenue officials had jointly carried a raid

on Wadadham and Nagaram 1 and 2 mines on February 11 midnight, five days after *The Indian Express* had exposed the massive violations in the mining operations.

The officials had seized 78 trucks and four JCBs from the two mines.

Asked why no offence was registered against the two mine operators, R Raja, Additional Superintendent of Police, Aheri, said, "I am busy with zilla parishad election

bandobast. I will enquire about it."

Wadadham mine owner Venketeshwar Yanganti is the president of the local Agriculture Produce Marketing Committee (APMC) and a BJP leader. Sironcha Tahsildar Ashok Kumare was supposed to send a panchnama of the seized vehicles - 30 of which were laden with sand, but the same hasn't been done yet. Kumare didn't respond to calls. On the contrary, Kumare is

learnt to have allowed the vehicles to be let off with a penalty of Rs 7,02,000.

When contacted, Collector Ranga Nayak said, "It's a cognisable offence. So, the police can straight away register offence. But if it has not happened, I will ask my Additional Collector Rama Moorthi at Aheri to take further action in this regard."

Rama Moorthi did not respond to calls and text messages.

**Notes:**

- The above is an extract of the detailed format of Nine Months Financial Results filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Nine Months Financial Results are available on the Stock Exchange website, [www.nseindia.com](http://www.nseindia.com) and [www.bseindia.com](http://www.bseindia.com), and on the Company's website, [www.pfcindia.com](http://www.pfcindia.com).
- Due to alignment of accounting policy with RBI prudential norms w.e.f. 01.04.2016:
  - valuation of Quoted Current Investments has been made category-wise against the earlier policy of scrip-wise valuation. Due to this change in the accounting policy, profit before tax for the current quarter and nine months has increased by ₹ 31.14 crore and ₹ 81.80 crore respectively;
  - policy of classifying a loan asset as a loss asset on becoming 'Doubtful for more than 3 years' with 100% NPA provision applicable up to 31.03.2016 stands replaced with continuation of asset classification as Doubtful instead of loss asset, with NPA provision @ 50%. Accordingly, in accordance with RBI norms, on loan accounts, which became due for classification as 'doubtful for more than three years' during the current nine months, provision has been made. Due to this change in the accounting policy, profit before tax for the current quarter and nine months has increased by ₹ 5.04 crore and ₹ 751.62 crore respectively.
- During the quarter and half year ended 30.09.2016, Company has amended the accounting policy for accounting for derivative contracts in order to align it with the 'Guidance Note on Accounting for Derivative Contracts' issued by The Institute of Chartered Accountants of India which has become applicable from 01.04.2016. The Guidance Note requires derivative contracts to be accounted either on fair value basis or as per hedge accounting and the Company has opted for accounting on fair value basis. Accordingly, Derivative contracts not covered by AS-11 but covered under Guidance Note are measured at fair value with changes in fair value being recognized in the Statement of Profit & Loss. In accordance with the transitional provisions mentioned in the Guidance Note, an amount of ₹74.35 crore (net of Deferred Tax Liability of ₹39.35 crore) has been adjusted in the opening balance of reserves, representing the cumulative impact of change in the fair value (gain) of the interest rate swaps till 31.03.2016 net of amount accrued. Thereafter, further fair value gain (net) on interest rate swaps has been booked to the Statement of Profit & Loss. Due to this change in the accounting policy, profit before tax for the current quarter and nine months has increased by ₹93.43 crore and ₹263.77 crore respectively.
- As regards provision on Standard Assets as per RBI norms, the accounting policy for the current year has been changed in quarter ended 30.06.2016 which requires provision enhancement from 0.30% on 31.03.2016 to 0.35% by 31.03.2017. Accordingly, provision for the quarter and nine months ended 31.12.2016 has been made on pro-rata basis. Due to this change in the accounting policy, profit before tax for the current quarter and nine months has decreased by ₹25.62 crore and ₹75.27 crore respectively.
- As regards R/R/R loans on which restructuring provisioning as per RBI norms is applicable, the accounting policy for the current year has been changed in quarter ended 30.06.2016 which requires provision enhancement from 3.50% on 31.03.2016 to 4.25% by 31.03.2017. Accordingly, provision for the quarter and nine months ended 31.12.2016 has been made on pro-rata basis. Due to this change in the accounting policy, profit before tax for the current quarter and nine months has decreased by ₹53.41 crore and ₹165.53 crore respectively.
- Consequent upon the issue of bonus shares during quarter ended 30.09.2016, Earnings Per Share (EPS) (basic and diluted) have been adjusted for all periods presented.
